ASKED BY ASQUITH

Billion and Quarter Dollars Demanded—War Costs England \$17,500,000 Every Day—3,000,000 Enlisted and 800,000 Persons Are Employed in Munition Plants.

By Associated Press.

London, September 15.—Official announcement was made today that Premier Asquith had asked the House of Commons to vote a credit of \$1,250,000,000 for army and navy, and also for civil government activity growing out of war conditions.

He announced that from July 18 to September 11, the daily net expenditures for the war had been \$17,500,000.

He declared that an aggregate of nearly three million men had enlisted since the beginning of the war.

The minister of munitions had established 20 shell factories, he said, and eighteen more were in course of construction; in all 715 controlled establishments were under the department.

In these factories, he said, 800,000 workmen were now employed, and the country had vastly exceeded any standard dreamed of before the war.

Mr. Asquith said that the total of Britain's loans to other belligerents was 250,000,000 pounds.

"This is a war of mechanism, organization and endurance," he said.

"Victory seems likely to incline to the side that can arm itself best and stay the longest. That is what we mean to do."

"Today we realize more clearly the sincerity of our own diplomacy, and the passionate love of peace with which we sought to avert the catastrophe of a world-wide conflict."

which forced us to vindicate our national honor and enlist our whole strength in the sacred cause of freedom.

"I have no doubt, either of the wisdom of our choice or of its ultimate triumph on the stricken field."

One thing Mr. Asquith opposed was "the sinister spirit of domestic strife."

Washington, September 15.—State Department officials, commenting today on the disclaimer of the Berlin government that the Canadian liner Hesperian was torpedoed, said that insufficient evidence had been received upon which to base representations to Germany at this time.

From the facts at hand, no opinion could be formed as to whether the Hesperian was torpedoed.

San Benito, Texas, September 15.—Heavy cavalry and infantry patrols, which were raised here last night, kept off a threatened attack by Mexican bandits.

Evidence of a plot to terrorize the city were strengthened by reports to army patrols of Mexicans' activity outside the town.

Ranch owners came into town for the night with their families, but returned this morning.

Friendly Mexicans told of plans to make a demonstration, to draw troops away from here and then attack the town.

Threats also have been made against the town of Mercedes. Three infantry companies and two cavalry troops are here.

San Benito's citizens were organized several days ago into a public safety committee, and were put on duty about the town.

Soldiers slept on their arms in automobiles last night, drivers ready to dash into the country. Plans were made to use school buildings as block houses.

Three Mexican prisoners, killed near here Monday night, did not escape from jail, as had been announced, but tried to get away from an automobile and were shot by the authorities.

BILLION LOAN
IS THREATENED

Teutonic Agents Making Determined Effort to Prevent Franco-Britain Loan From American Bankers—Panic and Runs on Banks Are Threatened—Foreign Bankers Are Heavily Guarded—Loan of Half Billion Dollars to Germany Is Threatened to Thwart Loan to Entente Allies.

By Associated Press.

New York, September 15.—The Anglo-French financial commission heard today with considerable annoyance that German agents, alarmed at the movement to lend Great Britain and France a billion dollars, to be spent for supplies here, had instituted a country-wide campaign against such a loan.

This campaign, according to reports considered reliable, contemplated wholesale withdrawals by pro-German depositors from banks participating in the loan and the flotation of a similar loan of a half-billion dollars for Germany.

Although Germany could not spend it, being unable to import American products, this would make it almost impossible to raise the British-French loan.

Another method of attack was the apparent intention to persuade bank officials with German blood, over the entire country, to oppose participation of banks in such a loan.

A number of large banks in this country already have received a flood of protests, some accompanied by veiled threats, it was said today, from German sympathizers.

The terms of all are so much alike as to indicate their inspiration had a common source.

Insulting letters have come through the mails to the Anglo-French commissioners.

Officials of some big financial institutions here, classed as pro-Germans, have no sympathy with these attacks.

Members of the commission have doubled their bodyguards, it became known today. They have been requested by the police not to announce in advance their plans for any day, and in no instance to appear on the street without detectives guarding them.

Some of the most threatening of the fifty abusive letters received, have been turned over to the police.

Whether this active opposition is

sporadic in its nature, or is organized, is not known.

Washington, September 15.—Protests against the Anglo-French credit loan, being negotiated in this country, were received at the White House today, in telegrams from various parts of the country.

No protest has come from the German government, so far as could be learned.

It was stated on authority that the State Department has no objection to credit loans, and that the government has no intention of interfering with the banking commission.

Five hundred similar beakers were loaded yesterday on the ship, and it is supposed these two were placed near the hatch by accident.

WILSON IS FACING GRAVE PROBLEM

Proposed Loan to Allied Governments Presents It.

BERLIN OFFICIALS AROUSED

Almost Certain That Germany Will Make a Strong Protest to Washington Against the Sanctioning of an Unsecured Loan—Plan, as Outlined, Held a Violation of the Spirit of Neutrality.

Washington, Sept. 15.—Administration officials clearly regard the attempt to be made to float a loan of \$1,000,000,000 for the allied belligerents in this country as presenting one of the gravest problems that has arisen out of the European war.

On the one hand it became known that the German government almost certainly will make a strong protest to President Wilson against the sanctioning of the proposed unsecured loan. On the other hand it is felt that previous utterances of the state department practically commit the government to a policy of non-interference if the contemplated venture of American bankers is to be solely in the nature of a credit loan. In addition, it is felt that the proposed loan or some such comprehensive arrangement is necessary to insure the protection of American foreign trade.

Count Von Bernstorff will be prompt to lodge an objection with the state department if the allied banking commission and the New York bankers with whom they are in conference attempt to consummate the loan plan outlined in the dispatches from New York. The German government will stake in large measure the future of its relations with the United States upon the outcome of the pending financial negotiations. It will take the position that to an extent almost equal to that of the munitions export issue, the financial issue involved affects the spirit of neutrality to be maintained by the United States in the present war. In addition, it is predicted that German citizens in this country will seek by every practicable means to discourage and impede the plans of the allied commission.

Some doubt obtains in official quarters as to the possibility of an immediate consummation of the loan plan. Indeed, predictions are heard in many quarters that New York bankers would find it extremely difficult unless public sentiment takes a very favorable turn to finance a loan of the indicated proportions.

BY ISSUANCE OF GOV. BONDS

New York, Sept. 15.—Further details of the loan by which the Anglo-French mission and the American financial interests will endeavor to establish foreign exchange became known in the Wall street district.

It is aimed to establish the credit by the issuance of joint government bonds of England and France, drawing 5 per cent interest, the bonds being a first lien on the two countries named. Information was not so definite as to the maturity of the bonds, and that will be one of the matters settled by discussion.

One thing has been definitely agreed upon without discussion, and that is that the bonds, principal and interest, are to be paid in American dollars free from the income taxes of both countries. The interest will be paid in New York city, and the principal also as it becomes due. The bonds will be listed on the New York Stock Exchange and will be dealt in as other bonds are dealt in. That is one of the arguments used by those who favor the longer term for the bonds; it will afford more opportunity for trading.

GRAIN VESSEL AT LAKE BOTTOM

Duluth, Minn., Sept. 15.—The steamer Onoko, belonging to the Steinbrenner interests of Cleveland, loaded with 110,000 bushels of wheat consigned to Buffalo by the Capitol Elevator company, sank while off Knife Island, about fourteen miles out of Duluth, almost without a moment's warning. None of the crew was lost. When it was seen that the steamer was sinking, Captain W. R. Dunn ordered the boats and the crew left the ship. They were picked up shortly afterward by the Standard Oil steamer Renown and were brought back to Duluth. The captain reported that the accident was unexplainable.

LAST WEEK AS COUNTY COMMISSIONER

HARRY F. BROWN.

When County Commissioner Harry F. Brown completes his fourth year in that very important office, Saturday of this week, he will leave a most enviable record behind him—one in which he has conscientiously discharged the duties of the office with a marked degree of fairness toward all, and at the same time applying business principles to the business of the county, thereby obtaining splendid results.

In his four years in office Mr. Brown has widened his acquaintance and greatly increased his already large number of friends. He moved to this city from his large farm in Paint township, a few years

ago, purchased a handsome home on N. North street, and in addition to looking after his extensive farming interests, and duties as county commissioner, became associated with Mr. J. L. Rothrock in the livery business, later buying Mr. Rothrock's entire interest and now conducts a thoroughly up-to-the-minute livery barn. Mr. Brown has long since taken his place in the foremost rank of Fayette county's progressive farmers and the city's conservative business men. He will now devote his energies to his livery business and farming interests. Mr. Brown is Fayette County's member of the Board of Trustees of the District Tuberculosis Hospital.

COMPULSORY SERVICE NEAR IN ENGLAND

Conscription Discussed For First Time In Parliament.

London, Sept. 15.—For the first time conscription was publicly discussed in the British parliament. This discussion occasioned the admission from Premier Asquith that the cabinet is seriously considering the subject of conscription, and that it will become the topic of parliamentary debate as soon as the cabinet has arrived at a conclusion. He begged the house to refrain in the meantime from further discussion of the question of the best way "in which the country shall meet the call to bring the war to a successful conclusion."

The movement for conscription has assumed redoubled impetus during the last few days. Even in quarters hitherto fervently opposed to the measures hints and even frank expressions are heard of the necessity of compulsory service. An estimate of the number of British troops which will have to be sent to the continent next year greatly exceeds the number already in the field. This is not the estimate of laymen, but of Lord Kitchener himself, who has submitted the figures to the cabinet. Recruiting has sensibly fallen off during the past month.

Second only in importance to the question of recruiting will be the question of the budget. Drastic measures will be suggested by Chancellor McKenna, including a big increase in the income tax and other changes intended to make the measure more effective.

20% More Power

The Chalmers valve-in-head motor with overhead camshaft is as far in advance of the old types of motors as the self-starter is ahead of the starting crank.

It is generally recognized in the trade and among owners as the 20% more power motor.

THE Chalmers Six-40 is the new motor car at a lower price, equipped with this wonderful new type of motor which has made it necessary for the Chalmers Company to so tremendously increase its production for 1916.

The Season's Motor Sensation

On the hills and country roads where going is hard, this \$1350 car will do all for you that it did for A. E. Walden when he established a record at the recent Uniontown Hill Climb, driving a Chalmers Six-40, that was eight seconds better than the previous record for the class.

Within the limits of touring car service its wonderful valve-in-head overhead camshaft motor will give you all the efficiency and "trigger-quick" getaway that this type gave De Palma and Resta when they averaged 90, 98 and 102 miles an hour for 300 and 500 miles at Indianapolis and Chicago.

Comfortable as a Rocking Chair

The new Chalmers Six-40 is as comfortable as a big library rocking-chair.

The leather upholstered seats are deep and luxurious; the sides of the tonneau are built on the "armchair" principle. You ride in the car—not on it.

The leg-room is ample; the rear springs are 57 inches long—longer than any other car in this class—and the result is that the car glides over rough spots with an easy motion that makes motoring a pleasure under every condition.

Made in Chalmers Shops

Chalmers cars are made in Chalmers shops under the most exacting standards. They are quality cars throughout in style, beauty, comfort and performance.

On the other hand it is felt that previous utterances of the state department practically commit the government to a policy of non-interference if the contemplated venture of American bankers is to be solely in the nature of a credit loan. In addition, it is felt that the proposed loan or some such comprehensive arrangement is necessary to insure the protection of American foreign trade.

Count Von Bernstorff will be prompt to lodge an objection with the state department if the allied banking commission and the New York bankers with whom they are in conference attempt to consummate the loan plan outlined in the dispatches from New York. The German government will stake in large measure the future of its relations with the United States upon the outcome of the pending financial negotiations. It will take the position that to an extent almost equal to that of the munitions export issue, the financial issue involved affects the spirit of neutrality to be maintained by the United States in the present war. In addition, it is predicted that German citizens in this country will seek by every practicable means to discourage and impede the plans of the allied commission.

Some doubt obtains in official quarters as to the possibility of an immediate consummation of the loan plan. Indeed, predictions are heard in many quarters that New York bankers would find it extremely difficult unless public sentiment takes a very favorable turn to finance a loan of the indicated proportions.

BY ISSUANCE OF GOV. BONDS

New York, Sept. 15.—Further details of the loan by which the Anglo-French mission and the American financial interests will endeavor to establish foreign exchange became known in the Wall street district.

It is aimed to establish the credit by the issuance of joint government bonds of England and France, drawing 5 per cent interest, the bonds being a first lien on the two countries named. Information was not so definite as to the maturity of the bonds, and that will be one of the matters settled by discussion.

One thing has been definitely agreed upon without discussion, and that is that the bonds, principal and interest, are to be paid in American dollars free from the income taxes of both countries. The interest will be paid in New York city, and the principal also as it becomes due. The bonds will be listed on the New York Stock Exchange and will be dealt in as other bonds are dealt in. That is one of the arguments used by those who favor the longer term for the bonds; it will afford more opportunity for trading.

GEN. RIPLEY DIES

Rutland, Vt., Sept. 15.—Brigadier General Edward H. Ripley, who led the first federal brigade into Richmond after the surrender of Lee's army, is dead after a long illness. He left Union college in the second year of the civil war and raised a company, going to the front as its captain and winning rapid promotion by distinguished conduct.

GIANT SUBMARINE LAUNCHED BY U. S.

Boston, Sept. 15.—Uncle Sam's largest and most powerful submarine, the M-1, was launched at the Fore River ship yard and was christened by Miss Sarah Roberts, daughter of Congressman Roberts of Chelsea. The M-1 is 185 feet long, has four torpedo tubes and a three-inch gun mounted on the forward deck. It is equipped with a new type of American engine.

GRAIN VESSEL AT LAKE BOTTOM

Duluth, Minn., Sept. 15.—The steamer Onoko, belonging to the Steinbrenner interests of Cleveland, loaded with 110,000 bushels of wheat consigned to Buffalo by the Capitol Elevator company, sank while off Knife Island, about fourteen miles out of Duluth, almost without a moment's warning. None of the crew was lost. When it was seen that the steamer was sinking, Captain W. R. Dunn ordered the boats and the crew left the ship. They were picked up shortly afterward by the Standard Oil steamer Renown and were brought back to Duluth. The captain reported that the accident was unexplainable.

LAST WEEK AS COUNTY COMMISSIONER

HARRY F. BROWN.

When County Commissioner Harry F. Brown completes his fourth year in that very important office, Saturday of this week, he will leave a most enviable record behind him—one in which he has conscientiously discharged the duties of the office with a marked degree of fairness toward all, and at the same time applying business principles to the business of the county, thereby obtaining splendid results.

In his four years in office Mr. Brown has widened his acquaintance and greatly increased his already large number of friends. He moved to this city from his large farm in Paint township, a few years ago, purchased a handsome home on N. North street, and in addition to looking after his extensive farming interests, and duties as county commissioner, became associated with Mr. J. L. Rothrock in the livery business, later buying Mr. Rothrock's entire interest and now conducts a thoroughly up-to-the-minute livery barn. Mr. Brown has long since taken his place in the foremost rank of Fayette county's progressive farmers and the city's conservative business men. He will now devote his energies to his livery business and farming interests. Mr. Brown is Fayette County's member of the Board of Trustees of the District Tuberculosis Hospital.

COMPULSORY SERVICE NEAR IN ENGLAND

Conscription Discussed For First Time In Parliament.

London, Sept. 15.—For the first time conscription was publicly discussed in the British parliament. This discussion occasioned the admission from Premier Asquith that the cabinet is seriously considering the subject of conscription, and that it will become the topic of parliamentary debate as soon as the cabinet has arrived at a conclusion. He begged the house to refrain in the meantime from further discussion of the question of the best way "in which the country shall meet the call to bring the war to a successful conclusion."

The movement for conscription has assumed redoubled impetus during the last few days. Even in quarters hitherto fervently opposed to the measures aunts and even frank expressions are heard of the necessity of compulsory service. An estimate of the number of British troops which will have to be sent to the continent next year greatly exceeds the number already in the field. This is not the estimate of laymen, but of Lord Kitchener himself, who has submitted the figures to the cabinet. Recruiting has sensibly fallen off during the past month.

Second only in importance to the question of recruiting will be the question of the budget. Drastic measures will be suggested by Chancellor McKenna, including a big increase in the income tax and other changes intended to make the measure more effective.

SCHOOLS MAY BAR CHILDREN.
Common colds are contagious and boards of health in many cities are considering barring children with colds from school. WILLIS TO ATTEND HARRIS FUNERAL

Eaton, O., Sept. 15.—Simplicity will characterize the funeral services to be held tomorrow afternoon for Andrew Lintner Harris, former governor of Ohio. Following a ten-minute sermon and the reading of resolutions adopted by the County Bar association and city council, Governor Willis will offer a testimonial of regard and esteem to the memory of the venerable statesman. James M. Cox and James E. Campbell, former governors, will attend the services.

MURDER SCENTED AT YELLOW SPRINGS

Xenia, O., Sept. 15.—A mystery surrounds the murder of Deaman C. Duncan, a recluse, whose body, with a wound over the left temple, was found on the floor of his home, opposite the entrance to Neff park, in Yellow Springs. Duncan's hatchet, supposed to have been the murderer's weapon, was found partly buried in the moss of a stagnant pool formed by a spring a few yards from the house.

CIVIL SERVICE COMMISSION IS TO BE RESPONSIBLE

Columbus, Sept. 15.—Attorney General Turner relieved the alarm both of provisional appointees, lest they would not receive their semi-monthly pay, and of State Auditor Donahay, lest some one might sue him for issuing pay warrants to such appointees. Turner holds the new civil service law, just as the old one did, transfers responsibility for payrolls from the auditor to the civil service commission.

Chalmers Six-40

\$1350 Seven Passenger

20% More Power

The Chalmers valve-in-head motor with overhead camshaft is as far in advance of the old types of motors as the self-starter is ahead of the starting crank.

It is generally recognized in the trade and among owners as the 20% more power motor.

THE Chalmers Six-40 is the new motor car at a lower price, equipped with this wonderful new type of motor which has made it necessary for the Chalmers Company to so tremendously increase its production for 1916.

The Season's Motor Sensation

On the hills and country roads where going is hard, this \$1350 car will do all for you that it did for A. E. Walden when he established a record at the recent Uniontown Hill Climb, driving a Chalmers Six-40, that was eight seconds better than the previous record for the class.

Within the limits of touring car service its wonderful valve-in-head overhead camshaft motor will give you all the efficiency and "trigger-quick" getaway that this type gave De Palma and Resta when they averaged 90, 98 and 102 miles an hour for 300 and 500 miles at Indianapolis and Chicago.

Comfortable as a Rocking Chair

The new Chalmers Six-40 is as comfortable as a big library rocking-chair.

The leather upholstered seats are deep and luxurious; the sides of the tonneau are built on the "armchair" principle. You ride in the car—not on it.

The leg-room is ample; the rear springs are 57 inches long—longer than any other car in this class—and the result is that the car glides over rough spots with an easy motion that makes motoring a pleasure under every condition.

Made in Chalmers Shops

Chalmers cars are made in Chalmers shops under the most exacting standards. They are quality cars throughout in style, beauty, comfort and performance.

See us to-day. We will give you a ride over the hills and country roads in this \$1350 car that will prove its 20% greater power.

New Service to Owners

Every Chalmers dealer gives to every buyer of a Chalmers car a Service Coupon Book, each coupon being redeemable for a definite amount of inspection service at any Chalmers dealer's anywhere.

Chalmers Club and Clubman

Every Chalmers owner is entitled to a membership card in the Chalmers Club commending him to the courtesies of Chalmers representatives everywhere, and to receive "The Chalmers Clubman" regularly without charge.

The Hot, Dry Weather

The hot sun and dry weather of the last four days have been piling up dollars for the people of this section and adding to the prospect of still further crop increases, at a rate which brings good humor to all rural residents.

The weather—ideal for this time of year—has come in spite of contrary predictions of the weather bureau.

Every day of hot sun means thousands of bushels of corn and it means that the farmers will be able to thresh and get to market other thousands of bushels of wheat and oats which have remained in the stack or in the shock during the long rainy season following wheat and oats cutting.

Many men experienced in raising corn have insisted that the corn, though green for this season of the year was so far along as to be comparatively free from danger. Others insisted that unless it was dried and cured before frost came the market value, if not the quantity of the crop, would be materially reduced.

Any way the people who depend upon the crops, and that's nearly everybody, have been feeling a little bit worried about the cool wet weather which has held on so long.

The tendency to worry has disappeared with the clouds and the rain, until now a confidence that a real bumper corn crop will be harvested from the fertile fields of Fayette and adjoining counties this fall, has enthused everybody and stimulated business to a marked extent.

We all know that a crop failure is not necessary to bring on business stagnation. The fear of a failure will accomplish the same result.

Neither is it necessary to harvest the crop to have the dollars flowing along freely in the channels of trade. As soon as the people become convinced that a big crop is sure the procession of dollars starts.

Thrifty folks refuse to anticipate the reward in money for a big crop when the prospect is gloomy, but they will anticipate their receipt whenever a crop seems certain.

These few days of sunshine have carried the people past fear and the temporary lull in business is behind us.

Henry Ford

The phenomenal business success achieved by Henry Ford the multimillionaire automobile manufacturer, during the last half dozen years has been second to that of no man in the industrial life of America.

The conduct of Mr. Ford at this time seems to justify the fear that his sudden acquisition of wealth may have, in a measure, affected his judgment. Mr. Ford seems to have become possessed of an all consuming desire to be in the public eye and in order to keep himself constantly before the public he does many extraordinary things not the least notable of which are his expressions of opinion on matters of the greatest public concern.

Mr. Ford seems to be laboring under the delusion that his sudden acquisition of great wealth qualifies him to reform industrial, economical and social conditions in one effort. He has now undertaken to point out the course of the nation in the matter of preparedness for war as well as to solve the long existing problem of bring capital and labor together.

Mr. Ford may have "hit" upon a lucky idea and been successful in capitalizing it but that does not make him a finished diplomat or a qualified government official. Modesty and quiet would add to the popularity of Henry Ford just now as rapidly as the manufacture of his automobile would increase his bank account.

Private Ownership of Railroads Encourages Initiative and Freedom

By Dr. JOHN WESLEY HILL, President of the International Peace Forum of New York

THE interests of the people and the railroads are identical. The people must support the railroads while the railroads serve the people. Failure upon either side means bankruptcy and ruin.

WHATEVER AFFECTS THESE HIGHWAYS OF TRAVEL AFFECTS THE PEOPLE. WHEN THEY PROSPER THE PEOPLE PROSPER. WHEN THEY SUFFER FROM BAD MANAGEMENT OR BAD LEGISLATION THE PEOPLE MUST PAY THE TOLL.

The railroads have annihilated time and space and condensed our remotest boundary lines into the opposite sides of a little, narrow street. It must not be forgotten that this service has been rendered by the railroads under the system of private ownership. In some of the older communities of Europe already occupied with a dense population the experiment of government ownership has been solved, but with results, as shown by statistics, far short in rapidity of development, efficiency of management and facilities and cheapness of freight and passenger rates as compared with the accomplishments of our privately owned lines of transportation. The people are not clamoring for a change.

THEY PREFER PRIVATE TO PUBLIC OWNERSHIP, KNOWING FULL WELL THAT THE FORMER ENCOURAGES INDIVIDUAL INITIATIVE AND FREEDOM, WHILE THE LATTER NOT ONLY INVADERS THE FUNDAMENTAL RIGHTS OF THE CITIZEN, BUT REDUCES HIM TO A FACTOTUM IN A DEADENING BUREAUCRACY.

Poetry For Today

IN THE LIBRARY.

From the oriels one by one
Slowly fades the setting sun;
On the marge of afternoon
Stands the new-born crescent moon;
In the twilight's crimson glow
Dim the quiet alcoves grow.
Urowsy-lidded Silence smiles
On the long deserted aisles;
Out of every shadowy nook
Spirit faces seem to look.
Some with smiling eyes, and some
With a sad entreatty dumb;
He who shepherded his sheep
On the wild Sicilian steep,
He above whose grave are set
Sprays of Roman violet;
Poets, sages—all who wrought
In the crucible of thought
Day by day as seasons glide
On the great eternal tide,
Noislessly they gather thus
In the twilight beauteous,
Hold communion each with each,
Closer than our earthly speech,
Till within the East are born
Premonitions of the morn.

Hardening Arteries.

The most frequent causes of
arteriosclerosis are, first, over-
work, bodily or mental, particu-
larly the former, and, second,
the poisoned condition of the
blood produced by infections—
such as blood poisoning, tubercu-
losis and Bright's disease—and,
third, overeating and the use of
alcohol. These last two causes
act by producing poisons or tox-
ins in the blood which weaken
the muscles of the blood vessels.
Overeating tends to arterioscle-
rosis, and we are said to dig our
graves with our teeth. The par-
alyzing effect that these causes
produce upon the kidneys results
in piling up in the body an ex-
cessive amount of waste and
other self made poisons. How
may we keep our arteries soft?
The answer includes the whole
question of personal hygiene—
the most careful and intelligent
attention to promoting and main-
taining at their highest efficien-
cy the activity of the kidneys,
skin and liver, the organs which
assist eliminations. Too violent
exercise is to be avoided as one
ages, as fatigue produces a tox-
in, or poison, which is danger-
ous.

Mighty Dear Peaches.

A long time ago some one said that
an Englishman eats a peach as if he
were performing a religious ceremony.
No wonder! In the London market a
sale of a dozen peaches ranks as a
wholesale transaction. And the price!
The London Telegraph recently print-
ed an article on "Cheap Fruit," in
which the statement occurs that "small
samples" were worth 2 to 3 shillings a
dozen, but that the best fruit could be
bought at 12 shillings a dozen. Think
of paying a quarter for a single peach!
But there were some shops that cut the
price and that would sell you a peach
for threepence (6 cents).—Youth's Com-
panion.

Others insisted that unless it was dried and cured before frost came the market value, if not the quantity of the crop, would be materially reduced.

Any way the people who depend upon the crops, and that's nearly everybody, have been feeling a little bit worried about the cool wet weather which has held on so long.

The tendency to worry has disappeared with the clouds and the rain, until now a confidence that a real bumper corn crop will be harvested from the fertile fields of Fayette and adjoining counties this fall, has enthused everybody and stimulated business to a marked extent.

We all know that a crop failure is not necessary to bring on business stagnation. The fear of a failure will accomplish the same result.

Neither is it necessary to harvest the crop to have the dollars flowing along freely in the channels of trade. As soon as the people become convinced that a big crop is sure the procession of dollars starts.

Thrifty folks refuse to anticipate the reward in money for a big crop when the prospect is gloomy, but they will anticipate their receipt whenever a crop seems certain.

These few days of sunshine have carried the people past fear and the temporary lull in business is behind us.

Henry Ford

The phenomenal business success achieved by Henry Ford the multimillionaire automobile manufacturer, during the last half dozen years has been second to that of no man in the industrial life of America.

The conduct of Mr. Ford at this time seems to justify the fear that his sudden acquisition of wealth may have, in a measure, affected his judgment. Mr. Ford seems to have become possessed of an all consuming desire to be in the public eye and in order to keep himself constantly before the public he does many extraordinary things not the least notable of which are his expressions of opinion on matters of the greatest public concern.

Mr. Ford seems to be laboring under the delusion that his sudden acquisition of great wealth qualifies him to reform industrial, economical and social conditions in one effort. He has now undertaken to point out the course of the nation in the matter of preparedness for war as well as to solve the long existing problem of bring capital and labor together.

Mr. Ford may have "hit" upon a lucky idea and been successful in capitalizing it but that does not make him a finished diplomat or a qualified government official. Modesty and quiet would add to the popularity of Henry Ford just now as rapidly as the manufacture of his automobile would increase his bank account.

Private Ownership of Railroads Encourages Initiative and Freedom

By Dr. JOHN WESLEY HILL, President of the International Peace Forum of New York

THE interests of the people and the railroads are identical. The people must support the railroads while the railroads serve the people. Failure upon either side means bankruptcy and ruin. WHATEVER AFFECTS THESE HIGHWAYS OF TRAVEL AFFECTS THE PEOPLE. WHEN THEY PROSPER THE PEOPLE PROSPER. WHEN THEY SUFFER FROM BAD MANAGEMENT OR BAD LEGISLATION THE PEOPLE MUST PAY THE TOLL. The railroads have annihilated time and space and condensed our remotest boundary lines into the opposite sides of a little, narrow street. It must not be forgotten that this service has been rendered by the railroads under the system of private ownership. In some of the older communities of Europe already occupied with a dense population the experiment of government ownership has been solved, but with results, as shown by statistics, far short in rapidity of development, efficiency of management and facilities and cheapness of freight and passenger rates as compared with the accomplishments of our privately owned lines of transportation. The people are not clamoring for a change.

THEY PREFER PRIVATE TO PUBLIC OWNERSHIP, KNOWING FULL WELL THAT THE FORMER ENCOURAGES INDIVIDUAL INITIATIVE AND FREEDOM, WHILE THE LATTER NOT ONLY INVADERS THE FUNDAMENTAL RIGHTS OF THE CITIZEN, BUT REDUCES HIM TO A FACTOTUM IN A DEADENING BUREAUCRACY.

Poetry For Today

IN THE LIBRARY.

From the oriels one by one
Slowly fades the setting sun;
On the marge of afternoon
Stands the new-born crescent moon;
In the twilight's crimson glow
Dim the quiet alcoves grow.
Browsy-lidded Silence smiles
On the long deserted aisles;
Out of every shadowy nook
Spirit faces seem to look,
Some with smiling eyes, and some
With a sad entreate dumb;
He who shepherd his sheep
On the wild Sicilian steep,
He above whose grave are set
Sprays of Roman violet;
Poets, sages—all who wrought
In the crucible of thought
Day by day as seasons glide
On the great eternal tide,
Noislessly they gather thus
In the twilight beauteous,
Hold communion each with each,
Closer than our earthly speech,
Till within the East are born
Premonitions of the morn.

PRACTICAL HEALTH HINT.

Hardening Arteries.

The most frequent causes of arteriosclerosis are, first, overwork, bodily or mental, particularly the former, and, second, the poisoned condition of the blood produced by infections—such as blood poisoning, tuberculosis and Bright's disease—and, third, overeating and the use of alcohol. These last two causes act by producing poisons or toxins in the blood which weaken the muscles of the blood vessels. Overeating tends to arteriosclerosis, and we are said to dig our graves with our teeth. The paralyzing effect that these causes produce upon the kidneys results in piling up in the body an excessive amount of waste and other self made poisons. How may we keep our arteries soft? The answer includes the whole question of personal hygiene—the most careful and intelligent attention to promoting and maintaining at their highest efficiency the activity of the kidneys, skin and liver, the organs which assist eliminations. Too violent exercise is to be avoided as one ages, as fatigue produces a toxin, or poison, which is dangerous.

Mighty Dear Peaches.

A long time ago some one said that an Englishman eats a peach as if he were performing a religious ceremony. No wonder! In the London market a sale of a dozen peaches ranks as a wholesale transaction. And the price! The London Telegraph recently printed an article on "Cheap Fruit," in which the statement occurs that "small samples" were worth 2 to 3 shillings a dozen, but that the best fruit could be bought at 12 shillings a dozen. Think of paying a quarter for a single peach! But there were some shops that cut the price and that would sell you a peach for threepence (6 cents).—Youth's Companion.

Switzerland is the oldest enduring republic, and the Swiss are nothing if not free. Yet, being now surrounded with warring nations, free press and free speech are practically prohibited. Political freedom is relative, freedom to mar one's own interest, but not to make mischief for neighbors or the state.

Haiti's muss was of short duration, yet it was enough to bring the people face to face with starvation. An important—yes, indispensable—feature of preparedness for war is a well stocked larder with a willing "man with the hoe" in reserve.

CITY MAY SHOULDER ENTIRE LIGHT BILL

Following Meeting of Many Property Owners Last Night, Petitions Are Circulated Protesting Against Proposed Assessment on "White Way," and Council Will Be Asked to Let City Pay Entire \$12,899 for All Lights, Including "White Way."

Following a meeting Tuesday night of some 25 or 30 property owners along the proposed "white way" in this city, petitions were placed in circulation. Wednesday, and may be presented to council tonight, asking that the proposed assessment of 50c or 60c per front foot as a part payment for the "white way" lights, not be passed by council.

The property owners at the meeting unanimously pronounced the proposed assessment an outrage, and nearly every man gave voice to his objection to the proposal.

R. C. Hunt was elected chairman of the meeting and D. T. McLean was made secretary. The proposed levy was discussed at considerable length by the property owners, and the committee named to circulate the petitions Wednesday and present to the council Wednesday night, is composed of Messrs Geo. Inskeep, Frank Karney, Geo. Cor, J. C. Dunn and Doc Allen.

The property owners who spoke were unanimously in favor of allowing the city to pay for every light in the city, arguing that each property owner or tax payer was equally benefitted by lighting the city.

Opposition to the proposed special assessment against property abutting on the "white way" has been growing rapidly since the new lighting proposal was adopted by the city council, culminating in the meeting of Tuesday night, and it is understood that only a part of the prop-

erty owners had been notified of the meeting.

The unanimous verdict that the assessment as proposed would be unjust to property owners, and the formal request by petition to council, may bring about results of a far reaching nature in connection with the lighting contract made, and the affair is being watched with intense interest by a great many citizens.

Under the contract authorized by council upon the recommendation of H. Whitford Jones, lighting expert, the city is to pay \$6,871 for lights outside of the "white way" district.

The cost of lighting the "white way" would be \$6,012 and it was planned to raise, by special assessment against the abutting property, from \$3,000 to \$4,000 per annum to aid in helping pay for the lights. The property owners figured that in the ten years, the life of the contract, the total assessment would reach from \$30,000 to \$40,000 and the petitions ask that the entire cost be paid by the city from general taxation and no part by special assessment.

The petition circulated read: "To the Honorable, the City Council of Washington C. H.:

"We, the undersigned, owners of property abutting on the so-called 'White Way' in Washington, while not opposing the project of additional lighting in the city, respectfully protest against the proposed special assessment against property abutting upon said way to pay expense of such lighting, for the following, among other reasons:

"First: Because the benefit anticipated from the proposed scheme of lighting will inure to all the property—all the citizens within the corporate limits and in no sense peculiarly to the property abutting on the 'White Way.'"

"Second: Because the application of the scheme of assessment will operate to place a perpetual encumbrance against such abutting real estate."

the offense charged against them had consisted of two whispered words during services at the Christian Union church. The fine assessed was \$1 and the costs.

THE CONSCIENCE FUND.

It Doesn't Really Exist, Yet It Has Half a Million Dollars.

Many men doubtless have spent sleepless nights as a result of cheating the United States government, but while a great many have made restitution, few have gone so far as the unidentified New York man, who gave twice as much to the "conscience fund" as he had stolen. Even then, apparently, his conscience was not at rest.

His story came to light when a \$10,000 contribution to the so called "conscience fund," the largest ever received at the treasury department in Washington, recently reached Secretary McAdoo by special delivery. George Cooksey, private secretary to Mr. McAdoo, gasped when he opened the envelope and a shower of gold certificates fell out on his desk. The money was sent anonymously from New York city. A brief note said: "While the sender has paid double to the United States the amount he stole, yet his conscience is not satisfied, and here is another payment." There were three \$1,000 bills, eight \$500 bills and thirty \$100 bills.

The largest contribution to the conscience fund, \$18,669.00, was handed to the collector of customs at New York Nov. 23, 1901. The conscience fund now totals \$453,922.03. It might be remarked in parentheses, however, that while there are many "conscience contributions," there is no "conscience fund" as a matter of fact, since all the money received in this way is converted into the general fund of the treasury.—Thomas F. Logan in Leslie's.

A Personal Application.

A well known business man in Lawrence, Mass., once had a customer who contracted a debt that ran unpaid for a year or more, and even several letters failed to bring about a settlement.

One day, while glancing over the religious notices in a local paper, the business man saw something that gave him a new idea. He went to his desk and wrote the following note to the debtor:

My Dear Sir—I see in the local press that you are to deliver an address on Friday evening before the Y. M. C. A. on "The Sinner's Balanced Account." I enclose yours, as yet unbalanced, and trust that I may have the pleasure of attending your lecture.

A check came by the next mail.—Youth's Companion.

Fortune cannot take away what she did not give.—Seneca.

RAYS FROM THE SUN.

They Become Light to Us Only Upon Striking Our Atmosphere.

The rays of light that reach us from the sun are not light in themselves. For instance, to show what is meant, suppose you were placed out in empty space, facing so that you would look sidewise at the light rays passing from the sun to the earth. You would not see them at all. You could only see them if you looked directly at the sun, so that the rays would enter your eyes and, striking upon the retina, produce there the impression of light.

The rays passing by and not entering your eyes would be invisible because in open space there is no medium like the atmosphere to scatter the rays in all directions and thus produce an illumination all around.

The sky at night is full of passing sunbeams and star beams, a vast and inextricable web of radiations, but they lie beyond the limits of the atmosphere, and only those are transformed into light which by reflection from a planet in the case of sunbeams or by coming straight into the eye from a star directly affect the nerves of vision.—Garrett P. Serviss in New York Journal.

Jan Emmet.

"Dixie," one of the most famous American songs, was written in 1859 by Daniel Emmet, an American song writer and minstrel, who was born in Ohio in 1815. He appeared in many cities of this country and England and at one time was associated with Dan Bryant.

TWO DAYS — TUESDAY AND WEDNESDAY — SEPTEMBER 28-29

NEW MINISTER TO MOVE HERE WITHIN 10 DAYS

Rev. J. V. Stone, newly appointed pastor of Grace M. E. church, will move to this city the latter part of next week and immediately assume charge of his pastoral duties here. So far as known at the present time, he will preach his first sermon in Grace church one week from Sunday morning, although there is still a possibility that he may be able to preach here Sunday morning.

REV. J. V. STONE.

The above is a splendid likeness of Rev. Stone, who is now located at Bremen, Ohio. Rev. Stone was transferred to the Ohio Conference in 1908, and for two years was at Briggsdale. His popularity is attested by the fact that he has been located at Bremen the past five years. Rev. Stone comes highly recommended as a man of sterling qualities, pleasing personality, splendid executive ability and a forceful speaker.

LAYING CONCRETE

The work of laying concrete base on the West Court street improvement is now well under way, and progressing rapidly.

THE CONSCIENCE FUND.

It Doesn't Really Exist, Yet It Has Half a Million Dollars.

Many men doubtless have spent sleepless nights as a result of cheating the United States government, but while a great many have made restitution, few have gone so far as the unidentified New York man, who gave twice as much to the "conscience fund" as he had stolen. Even then, apparently, his conscience was not at rest.

His story came to light when a \$10,000 contribution to the so-called "conscience fund," the largest ever received at the treasury department in Washington, recently reached Secretary McAdoo by special delivery. George Cooksey, private secretary to Mr. McAdoo, gasped when he opened the envelope and a shower of gold certificates fell out on his desk. The money was sent anonymously from New York city. A brief note said: "While the sender has paid double to the United States the amount he stole, yet his conscience is not satisfied, and here is another payment." There were three \$1,000 bills, eight \$500 bills and thirty \$100 bills.

The largest contribution to the conscience fund, \$18,669.00, was handed to the collector of customs at New York Nov. 23, 1901. The conscience fund now totals \$453,922.03. It might be remarked in parentheses, however, that while there are many "conscience contributions," there is no "conscience fund" as a matter of fact, since all the money received in this way is converted into the general fund of the treasury.—Thomas F. Logan in Leslie's.

A Personal Application.

A well known business man in Lawrence, Mass., once had a customer who contracted a debt that ran unpaid for a year or more, and even several letters failed to bring about a settlement. One day, while glancing over the religious notices in a local paper, the business man saw something that gave him a new idea. He went to his desk and wrote the following note to the debtor:

My Dear Sir—I see in the local press that you are to deliver an address on Friday evening before the Y. M. C. A. on "The Sinner's Balanced Account." I inclose yours, as yet unbalanced, and trust that I may have the pleasure of attending your lecture.

A check came by the next mail.—Youth's Companion.

Something Like It.

"I hear your husband is crazy about his new auto."
"I should say so! He's a perfect autocrat."—Baltimore American.

Fortune cannot take away what she did not give.—Seneca.

RAYS FROM THE SUN.

They Become Light to Us Only Upon Striking Our Atmosphere.

The rays of light that reach us from the sun are not light in themselves. For instance, to show what is meant, suppose you were placed out in empty space, facing so that you would look sideways at the light rays passing from the sun to the earth. You would not see them at all. You could only see them if you looked directly at the sun, so that the rays would enter your eyes and, striking upon the retina, produce there the impression of light.

The rays passing by and not entering your eyes would be invisible because in open space there is no medium like the atmosphere to scatter the rays in all directions and thus produce an illumination all around.

The sky at night is full of passing sunbeams and star beams, a vast and inextricable web of radiations, but they lie beyond the limits of the atmosphere, and only those are transformed into light which by reflection from a planet in the case of sunbeams or by coming straight into the eye from a star directly affect the nerves of vision.—Garrett P. Serviss in New York Journal.

Jan Emmet.

"Dixie," one of the most famous American songs, was written in 1859 by Daniel Emmet, an American song writer and minstrel, who was born in Ohio in 1815. He appeared in many cities of this country and England and at one time was associated with Dan Bryant.

The Columbus Citizen of Tuesday makes the following announcement which will be of interest to Mrs. Pavey's Washington relatives and friends:

"Mrs. C. C. Pavey, 41 Wilson avenue, president of the City Federation of Women's clubs, is a candidate for the presidency of the State Federation of Women's clubs which holds its annual convention and election Oct. 19 to 22, in Toledo.

"Mrs. Pavey has been actively identified with women's club work over the state for the past 14 years. She is a graduate of Wellesley college, vice president of the City Federation of Women's clubs in Columbus, president of Sorosis and has taken an active part in Y. M. C. A. work.

"Prominent club women in the city and over the state are taking

active means to push Mrs. Pavey's candidacy. Mrs. Pavey just returned from a three-months' trip through the west.

Invitations have been issued by Mr. and Mrs. Horatio C. Claypool and Miss Bernice Claypool to a dance at their home on West Second street Saturday evening, September 18th, from 8:30 until 11:30 o'clock.

Miss Claypool is expecting houseguests to arrive this week, and a round of society gaiety is being arranged. Her guests will be: Miss Dorothy Bartine, Hackensack, N. J.; Miss Florence Jones, of Washington C. H.; Miss Bettie Bailey, of Fargo N. D., and Miss Nellie Brown, of Tampa, Fla.—Scioto Gazette.

An autumn event of conspicuous interest in Circleville society will be the marriage of Miss Helen Fickardt to Mr. Frederick Charles Gunning, of New York, on September the thirtieth. The ceremony will be performed in the Episcopal church.

The bride is well known in this city, being a cousin of Mrs. Charles Allen of this city, and having also visited Mrs. Willard Story and Miss Elizabeth Ballard.

Mr. and Mrs. Ed Fite are entertaining Mr. Fite's brother, Mr. L. D. Fite, wife and son, of Cleveland, and Mr. Andrews of Cincinnati.

Dr. Annette Rankin of Boston, Mass., is visiting her sister, Miss Clara Rankin, on the Chillicothe pike.

Mrs. N. S. Barnett will be the guest of her sister, Mrs. E. F. Kinneer, in Columbus this week to attend the Fall Festival.

Mrs. Mary Dempsey is down from Columbus visiting her daughter, Mrs. Oscar Kellhofer.

Prof. and Mrs. George Bruce Franklin and son Robert Bruce, who have been visiting Mrs. Franklin's parents, Capt. and Mrs. George C. Jenkins, returned to their home in Boston, Mass., Tuesday.

Misses Clara Walley and Hattie Gregg, of Bainbridge, spent Tuesday here shopping and visiting friends.

Mr. E. K. Morris, of Indianapolis, Ind., editor of the Swine Breeders' Journal, spent Tuesday the guest of Mrs. Laura Stewart and Miss Lora Martin at Spring Hill farm, inspecting the herd of Duroc-Jerseys, ready for the Stewart sale, October 5th, for Indiana buyers.

Mr. and Mrs. Ralph Penn, daughters Kathleen and Marjorie, have been the guests of friends who are giving a house party at their cottage on Buckeye Lake the past week. They will also visit in Columbus.

Mrs. Milo Rockwell is seriously ill at her home on Washington avenue. Her sister, Mrs. Mary Marcy of Mt. Sterling, and niece, Mrs. Renick of Findlay, have been called to her bedside.

Mrs. Lale Schneider, who arrived from Chicago to visit Mrs. Caroline Hettessheimer at the Fayette Hospital is the guest of Mrs. Fred Short for several days.

MACHINE HITS TRENCH IN STREET

Desoto Cochran's automobile was nearly wrecked Tuesday night, when it struck the trench in front of the postoffice, where repairs upon a water pipe are being made.

The front wheels of the car went over the pile of earth and the trench, where it stopped. Bystanders aided in releasing the machine.

A GOOD THING TO KEEP IN MIND

The Welfare Association is hopeful that women of the town generally will remember the need of the poor in their fall overhauling.

The association's stock of fall clothing is very low and efforts are being made to replenish it before winter sets in cold and wet, bringing its never failing call from those unfortunates who are never supplied with necessities.

The association will also hold the annual rummage sale this fall and will welcome every possible donation, anything and everything for that. The thrifty housekeeper often throws away articles which, of little value to her, would be of real help and benefit to the rummage sale.

BAINBRIDGE PAPER HAS NEW OWNER

Robert McKee, Jr., of Bainbridge, at one time connected with the Springfield Sun, and formerly advertising manager of the Morning Advertiser, is going to take over the interests of the Bainbridge Observer, assuming the active management November first.

Mr. McKee is exceedingly popular in his home town, as well as a capable young newspaper man and will undoubtedly make good in his new venture.

FALL FESTIVAL

Chillicothe is ready to receive its thousands of visitors next week. The old town has made extraordinary efforts this time to surpass all previous Fall Festivals and it is determined that this show shall live in the memory of all that see it.

Taking time by the forelock the booths were erected early and this means whether the visitor comes the first day or the last the show will be complete. The merchants are making an extra effort to get unique displays and have gone to an enormous expense to make everything attractive.

There is an old saying at the Chillicothe Fall Festival something doing every minute. You will see more parades and free shows than any place in America. Every night there will be a big parade of some kind and it will be worth your while to look up the dates that you are interested in.

The Farmers Appreciation Parade, the automobile parade and the Merchants' display parade will be a feature and will be a feature you will want to see, to say nothing of "Satan Day" in his airplane flights. There will be big doings in Chillicothe next week.

For the Convenience of Our Fall Festival Visitors—

COLLECTED SHOT IN APPENDIX

William Butler, 62 years old, of Chillicothe, had a shot pouch for an appendix. When operated upon Tuesday by Dr. T. B. Sherman, of Cincinnati, 85 shots weighing more than two ounces, were removed from his appendix.

The arsenal in his digestive tract was discovered by accident during the course of a minor operation.

The appendix was almost five inches longer than normal and was almost filled with shot. All were badly battered. Butler, who had never been shot, accounts for the lead through his fondness for game.

In the course of several years he thinks he swallowed the shot with his meals. He never suffered from appendicitis.

GERMAN ENVOY VERY OPTIMISTIC

Sees Amicable Solution of the
Submarine Controversy.

CASE IN HANDS OF BERLIN

Expected That a Week or Ten Days
Will Elope Before the Outcome of
Ambassador Von Bernstorff's Efforts
Can Be Known—Administration
Enters Upon a Period of Waiting—Lansing to Rest Up.

Washington, Sept. 15.—The immediate future of the submarine controversy between the United States and Germany is now largely in the hands of Berlin. With full appreciation of this fact, but still most hopeful that Germany will be willing to make the concessions necessary to carry the situation over its present most difficult stage, the administration has entered upon a period of waiting.

Count Von Bernstorff, the German ambassador, is the chief agency through which it is hoped here that a more satisfactory attitude of the German government toward the Arabic case will be obtained. He has opened

a fresh discussion with his government, and pending the outcome of his efforts there will be no further moves in the situation so far as this government is concerned.

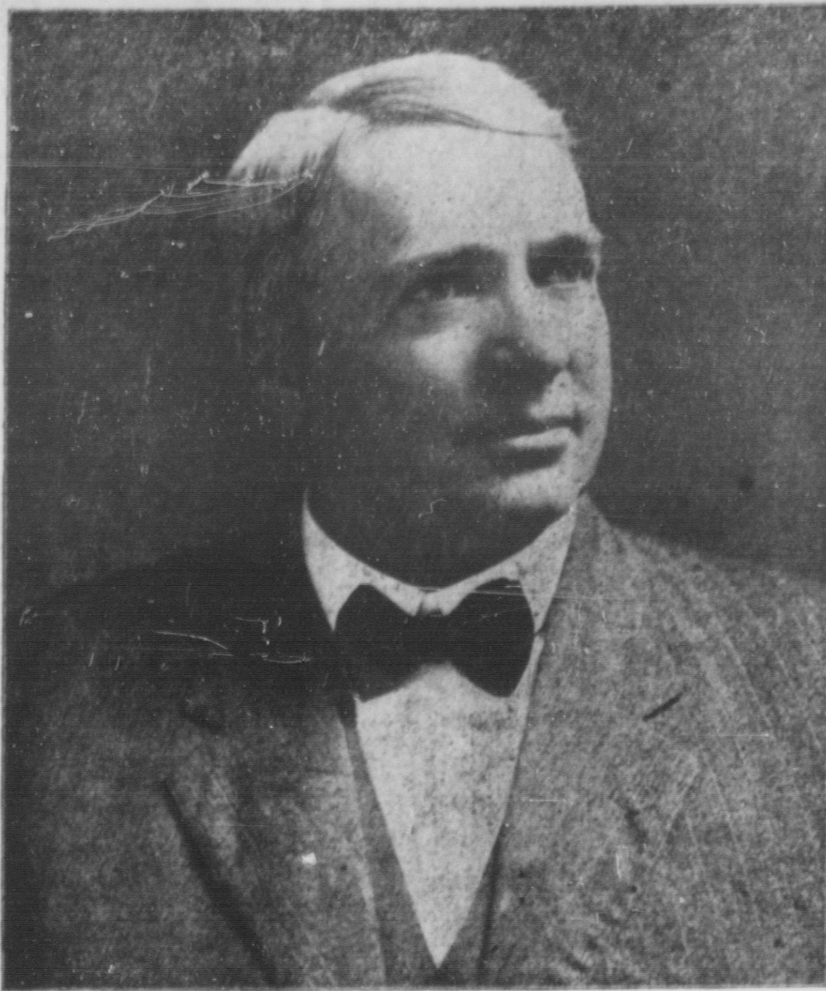

It is expected that at least a week or ten days will elapse before the outcome of his efforts can be known here. The Washington government is more than willing to give the ambassador plenty of time for adequate consultation with Berlin and to defer action, or even decision, until he is in position to communicate again with the state department. Matters having reached this stage of inactivity for the moment, so far as the Washington government is concerned, Ambassador Bernstorff is planning to leave Washington in a day or two for the summer embassy.

It is also quite probable that Secretary Lansing will arrange to get away for a few days of rest in the interim. Mr. Lansing has not taken any vacation this year.

The German ambassador was never more hopeful of an amicable solution of the submarine controversy being reached than he is now.

The immediate difficulty preventing both governments reaching an understanding is the German note in the Arabic case. The United States finds it impossible to accept this note as satisfactory because in it Germany refuses to accept liability for the act (in this case the mistake) of its submarine commander.

COMPLETES HIS SECOND TERM THIS WEEK

EDWIN W. WEAVER.

Mr. Edwin W. Weaver, President of the Board of County Commissioners, and one of the county's best known up-to-the-minute farmers, completes his fourth year on the Board of Commissioners with the close of Saturday of this week, and the new board, consisting of Mr. Lewis Perrill, J. G. Williams and Emmitt Morris, will meet and organize Monday of next week.

Like Commissioner Brown, Mr. Weaver concludes his second term in one of Fayette county's most important offices, and will devote his time to his large farming interests northeast of this city.

"Ed" resides on the Columbus pike one mile northeast of Washington, and is known in every nook and corner of Fayette county.

During his four years as commissioner, Mr. Weaver has been widely commended for his close application to the duties of his office and for the vast amount of work accomplished. He has been conservative in disbursing the finances of the county and in his official dealings with hundreds of Fayette countians, has been eminently successful in insuring satisfaction while at the same time looking after the best interests of the county.

CLEN DENNING IS UNDER FIRE

Willis Would Remove Member
of State License Board.

Columbus, Sept. 15.—Governor Willis announced that charges will be filed immediately against Byron L. Clen Denning of Cincinnati, Democratic member of the state liquor license board. He will act under an opinion of Attorney General Turner that participation in the referendum on the McDermott liquor license law by state or county licensing officials constitutes misconduct in office.

Mr. Clen Denning issued a signed statement two weeks ago that he was participating in the referendum. Tuesday the governor called him to the executive office, reminded him of the statement, produced a copy of the attorney general's opinion, and then asked for his resignation. Clen Denning refused to resign, contending that he had acted within his rights, regardless of the opinion of the attorney general. The governor then notified him that charges of misconduct in office would be filed.

This action of Governor Willis in bringing charges of misconduct against a member of the state licensing board is regarded only as an example of what will follow as to other members of the state board and members of county boards in case evidence is obtained connecting them with activity in aiding the referendum.

Governor Willis will hear the charges against Clen Denning after the commissioner has been given thirty days' notice. The governor is to be the sole judge of the charges and will sustain or dismiss them, according to his own disposition.

BATHER DROWNS

JIM HILL 77 TODAY

St. Paul, Minn., Sept. 15.—James J. Hill is seventy-seven years old today. He is spending the day in New York directing the \$1,000,000,000 loan to the French and English governments. Mr. Hill strongly objected to going to New York because he wanted to spend his birthday with Mrs. Hill and his children. When all efforts failed, Mrs.

Hill and L. W. Hill, his son, prevailed upon him that his duty was to be in New York. Mrs. Hill herself packed his grip and a celebration of Mr. Hill's birthday will be held later when he returns. "My birthdays will grow fewer," said Mr. Hill, "and I want to spend them at home with my family."

While Mr. Hill is trying to solve the biggest single financial problem in the history of the world, 400 veteran employees of the Great Northern railway are celebrating his birthday at Grand Forks, N. D.

NO MONEY

Columbus, Sept. 15.—Doubt whether official arguments for and against referendum proposals can be mailed to the voters this fall was cast when Secretary of State Hildebrandt asked the state emergency board for \$30,000 for this purpose. The legislature failed to make an appropriation. The board was uncertain of its power to make the grant and asked the opinion of Attorney General Turner.

VOTES FOR PROHIBITION

Columbia, S. C., Sept. 15. — South Carolina has voted for prohibition in the statewide election ordered by the last general assembly. The vote was not heavy, only about 60,000 votes being cast. Prohibition seems to have carried in 42 out of 44 counties. In Dorchester the vote is close, while Charleston went against prohibition by a vote of ten to one. The vote was not heavy as compared to a Democratic primary, on account of general election requirements, the voters being called on to show paid-up tax receipts and registration certificates. The prohibition law will take effect on Jan. 1.

The fifteen counties which now have dispensaries are Aiken, Bamberg, Barnwell, Beaufort, Calhoun, Charleston, Dorchester, Florence, Georgetown, Jasper, Lexington, Orangeburg, Richland, Union and Williamsburg.

FORGERY CHARGED

Columbus, Sept. 15. — That a well known Democrat of this city, whose name is withheld, committed forgery in the filing of six petitions in favor of the McDermott law referendum, was the finding of the board of elections which was certified to Prosecuting Attorney Campbell. Attorney Herbert Shaffer testified his signature as notary had been forged, and even misspelled.

GERMAN ENVOY VERY OPTIMISTIC

Sees Amicable Solution of the
Submarine Controversy.

CASE IN HANDS OF BERLIN

Expected That a Week or Ten Days
Will Elapse Before the Outcome of
Ambassador Von Bernstorff's Ef-
forts Can Be Known—Administration
Enters Upon a Period of Wait-
ing—Lansing to Rest Up.

Washington, Sept. 15.—The im-
mediate future of the submarine con-
trovery between the United States and
Germany is now largely in the hands
of Berlin. With full appreciation of
this fact, but still most hopeful that
Germany will be willing to make the
concessions necessary to carry the sit-
uation over its present most difficult
stage, the administration has entered
upon a period of waiting.

Count Von Bernstorff, the German
ambassador, is the chief agency through
which it is hoped here that a more
satisfactory attitude of the Ger-
man government toward the Arabic
case will be obtained. He has opened

a fresh discussion with his govern-
ment, and pending the outcome of his
efforts there will be no further moves
in the situation so far as this govern-
ment is concerned.

It is expected that at least a week
or ten days will elapse before the out-
come of his efforts can be known here.
The Washington government is more
than willing to give the ambassador
plenty of time for adequate consulta-
tion with Berlin and to defer action,
or even decision, until he is in posi-
tion to communicate again with the
state department. Matters having
reached this stage of inactivity for
the moment, so far as the Washington
government is concerned, Ambassa-
dor Bernstorff is planning to leave
Washington in a day or two for the
summer embassy.

It is also quite probable that Sec-
retary Lansing will arrange to get away
for a few days of rest in the interim.
Mr. Lansing has not taken any vaca-
tion this year.

The German ambassador was never
more hopeful of an amicable solution
of the submarine controversy being
reached than he is now.

The immediate difficulty preventing
both governments reaching an under-
standing is the German note in the
Arabic case. The United States finds
it impossible to accept this note as
satisfactory because in it Germany re-
fuses to accept liability for the act
(in this case the mistake) of its sub-
marine commander.

COMPLETES HIS SECOND TERM THIS WEEK

EDWIN W. WEAVER.

Mr. Edwin W. Weaver, President
of the Board of County Commis-
sioners, and one of the county's best
known up-to-the-minute farmers,
completes his fourth year on the
Board of Commissioners with the
close of Saturday of this week, and
the new board, consisting of Mr.
Lewis Perrill, J. G. Williams and
Emmitt Morris, will meet and or-
ganize Monday of next week.

Like Commissioner Brown, Mr.
Weaver concludes his second term
in one of Fayette county's most im-
portant offices, and will devote his
time to his large farming interests
northeast of this city.

"Ed" resides on the Columbus pike
one mile northeast of Washington,
and is known in every nook and
corner of Fayette county.

During his four years as commis-
sioner, Mr. Weaver has been widely
commended for his close application
to the duties of his office and for
the vast amount of work accomplish-
ed. He has been conservative in
disbursing the finances of the coun-
ty and in his official dealings with
hundreds of Fayette countians, has
been eminently successful in insur-
ing satisfaction while at the same
time looking after the best interests
of the county.

THE BANNER BABY STATE

New York, Sept. 15.—Race suicide,
which the anti-suffragists claim is the
ultimate fate of the race if suffrage
goes through, is proved by recent fig-
ures to be more prevalent in the eastern
than in the western states. Ac-
cording to a statement issued by the
Empire State campaign committee,
California is the banner baby state;
more babies are born there to the
square inch than in any other part of
the country. Colorado has a higher
birth rate than Maine, though practi-
cally the same population, and the
lowest infant mortality in the country
is found in Seattle, Wash., and in Oak-
land, Cal. Massachusetts holds the
sad record of being the highest in the
number of babies who die.

CLEN DENNING IS UNDER FIRE

Willis Would Remove Member
of State License Board.

Columbus, Sept. 15.—Governor Wil-
lis announced that charges will be
filed immediately against Byron L.
Clen Denning of Cincinnati, Demo-
cratic member of the state liquor li-
cense board. He will act under an
opinion of Attorney General Turner
that participation in the referendum
on the McDermott liquor license law
by state or county licensing officials
constitutes misconduct in office.

Mr. Clen Denning issued a signed
statement two weeks ago that he was
participating in the referendum. Tues-
day the governor called him to the
executive office, reminded him of the
statement, produced a copy of the at-
torney general's opinion, and then
asked for his resignation. Clen Den-
ning refused to resign, contending
that he had acted within his rights,
regardless of the opinion of the at-
torney general. The governor then not-
ified him that charges of misconduct
in office would be filed.

This action of Governor Willis in
bringing charges of misconduct against
a member of the state licensing board
is regarded only as an example of
what will follow as to other members
of the state board and members of
county boards in case evidence is ob-
tained connecting them with activity
in aiding the referendum.

Governor Willis will hear the
charges against Clen Denning after
the commissioner has been given thirty
days' notice. The governor is to be
the sole judge of the charges and
will sustain or dismiss them, accord-
ing to his own disposition.

TEUTONS ARE TAKING MANY RUSS PRISONERS

Big Drive Toward Dvinsk Goes Forward Unchecked.

PORT OF RIGA THREATENED

Russians Vigorously Pressing the Austrian Forces in Galicia—Artillery Duel in the Western Zone Unabated German Submarine Lost Near the Dardanelles—Total British Casualties to Date.

London, Sept. 15.—According to the Berlin official statement the German drive toward Dvinsk goes forward unchecked, and Field Marshal Von Hindenburg's army has taken 5,000 prisoners in the encounters of the last twenty-four hours and forged ahead to within about thirty miles of the Dvinsk fortress.

It is reported that the Russians are evacuating Vinnia.

Riga, for the time being, is left unthreatened by direct attack, but should Von Hindenburg succeed in getting effectively astride the Petrograd railroad farther south it would expose the Baltic port to a serious enveloping movement.

All the mid-Poland fighting, the Germans claim, is progressing in their favor, but the Russians are still on the offensive in Galicia, pressing the Austrians with a vigor that recalls their dash through Galicia in the latter part of last winter.

The artillery duel in the west as yet has not abated. Both sides are making a prodigious expenditure of shells, leaving the public to guess when, if at all, any general infantry attack is coming.

A German submarine has been torpedoed and sunk by a French torpedo boat patrol between Mytilene and Tenedos.

Official announcement was made in the house of commons that the total of British war casualties up to Aug. 31 was 321,383 officers and men killed, wounded or missing. These figures refer to the army alone. Losses of the British army during the summer were somewhat smaller than in April and May. This is probably accounted for by the comparative inaction along the Franco-Belgian front. It may be assumed that the heaviest proportion of losses was at the Dardanelles.

THE PHILLIES TAKE ANOTHER

Official announcement was made in the house of commons that the total of British war casualties up to Aug. 31 was 321,383 officers and men killed, wounded or missing. These figures refer to the army alone. Losses of the British army during the summer were somewhat smaller than in April and May. This is probably accounted for by the comparative inaction along the Franco-Belgian front. It may be assumed that the heaviest proportion of losses was at the Dardanelles.

Bigger Tires At Lower Prices

Sizes 30 x 3½ and 30 x 3

This year we have added to Goodyear Small-size tires these three vast improvements:

We have added 20% to the air capacity, which means much added size. The larger a tire the more it will carry, as you know. Or the longer it will carry any certain load.

We have added 30% to the side wall strength. That's where constant bending breaks a thin-walled tire—just above the rim.

And we've improved the tire's design in new ways found to give it added strength.

Cost \$317,000

These improvements, on this year's output, will cost us \$317,000.

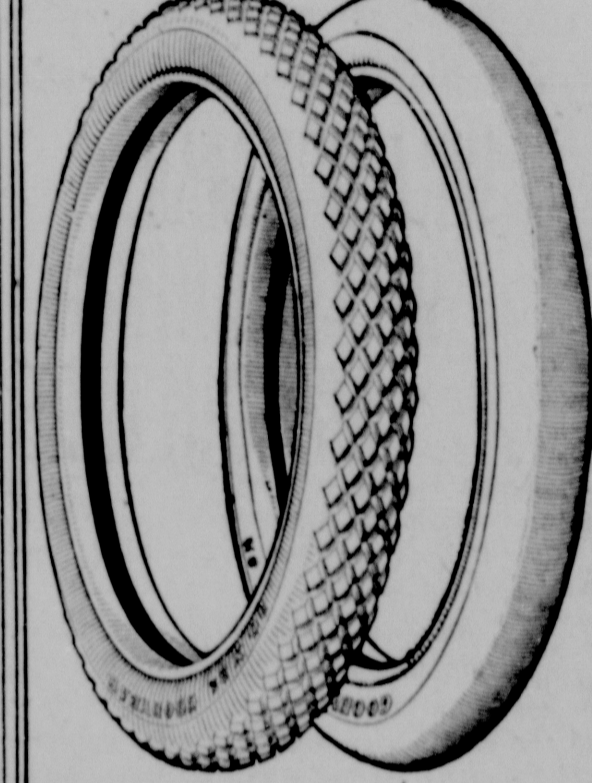

Yet this year we made another big price reduction—our third in two years, totaling 45 per cent.

Super Tires

These are Goodyear tires which we have bettered—the leading tires. They have for years, on sheer merit, outsold any other.

Now we have added vast extra capacity. We have added much extra strength. No other tires in the world in these sizes give such value for the money.

Be sure that you get them.

One serial netted him \$3,000 clear money, and for the sale of the last one at \$15,000, he obtains the bulk of the amount in turning the deal.

The last play, "The Love Shop," nearly perished in the recent \$300,000 fire of the Famous Player Company, Mr. Weir having removed the manuscripts the evening prior to the fire.

But the greatest achievement accomplished is the organization of The Super Film Company, a concern backed by some of the biggest men in the moving picture game, and in which Mr. Weir holds 15 per cent of the stock for planning and bringing about the organization. One man alone put \$75,000 in the new company, and high class comedies will be specialized by the new concern. Mr. Irving Cobb has signed a contract with the company for one year at approximately \$500 per week. Film experts say the new concern should have a most successful career. The first picture will be launched next week.

Mr. Weir also has just sent to the publisher a book on the big wheat industry.

WILL USE MAIL IN TEACHING AGRICULTURE

By Associated Press.

Columbus, September 15.—Citizens of Ohio can study agriculture by mail hereafter.

Officials of the college of agriculture, Ohio State University today announced the inauguration of 22 correspondence courses in farm subjects to be started within a few weeks. Any course, arranged in separate lessons, can be taken without cost by Ohio residents. Most will occupy the greater part of the winter. After persons have had a chance to read each lesson, a written test will be given by mail, and these examination papers inspected and criticized by professors in the college of agriculture.

Ohio is said to be one of the first states to institute such a correspondence course as part of the state university curriculum. Special bulletins containing full information concerning the courses can be secured by addressing J. E. McClintock, Ohio State University, Columbus.

Courses are offered in these subjects: Alfalfa culture, bee keeping, clover culture, concrete work on the farm, corn culture, dairy farming, farm accounts, farm buildings, farm power, farm lighting, farm water supply and sanitation, grasses, home sanitation, orchard fruits, potato growing, poultry farming, selection and preparation of foods, sheep farming, soil fertility, study of trees, tobacco growing, and vegetable gardening.

CASE UNDER WAY IN PROBATE COURT

The case of Ada Hays against J. W. Hays, in which possession of a minor child is sought by the plaintiff, is under way in the probate court, and has been in progress since Tuesday morning.

The plaintiff is represented by J. D. Post and C. E. Baughn and the defendant by W. B. Rogers.

ARRESTED FOR ENTERING HOUSE

Gerald Cartwright was apprehended on a warrant issued before Justice T. N. Craig, charged with breaking into a residence with intent to commit a felony.

The charge was filed by a Mrs. Dowler, of near the old gas plant. The trial will be held Saturday.

New Ways of Saying It

"Strain at a gnat and swallow a camel" came from the lips of an old friend as "Gag at a straw and swallow a whole load of hay." Of a certain girl she said, "She smiles like a frog at the girls and grins like a rag carpet at the boys." I have never seen a rag carpet since but it resolves itself into rows of grinning teeth, and as for the drooping smile of the frog, it certainly speaks for itself, as it were.—Woman's Home Companion.

ARCHITECT A CLOWN

Buffoon With Carl Hagenbeck-Wallace Circus Has Interesting Career.

From the life work of an architect to that of a circus clown is a long jump, but one which was made by Harvey Johnson, principal clown with the Hagenbeck-Wallace Circus which comes to Washington C. H., Monday, September 20 for two performances.

For fifteen years Johnson was a past master of the blue prints in his Chicago office. He was very successful and he drew the plans and superintended the construction of many buildings. One day a circus came to Chicago, and, like hundreds of others, he thought he would have to go and carry the children. He watched the clowns and underneath their makeup he saw the seriousness with which they worked. It impressed him.

Leaving the show grounds Johnson began to think about the clowns. He went to the public library and dug up books as far back as those which dealt with the days of the circus in the Roman Coliseum. He read about Grimaldi and other ancient buffoons. Then he began to work out stunts and tricks. He placed them on paper and developed them stage by stage. He found a veteran clown who assisted him in his work. Finally he got a job with a small circus at a still smaller salary.

But Johnson liked the work; that of making others happy. The stunts he developed were really marvelous. They were totally different from ordinary clowns' stunts. A scout of the Carl Hagenbeck-Wallace Circus saw Mr. Johnson and immediately gave him a contract. For eight years he has been "clowning for a livin'," as he tersely expresses it, and, apparently, he is in love with the flapsticks.

It is a very difficult act that Mr. Johnson cannot get a burlesque of some kind on. Some of his stunts for this year are: "The Suffragette Parade," "Mutt and Jeff," "The Atlantic City Boardwalk" and "Broadway After Dark." Mr. Johnson has forty-nine clowns assisting him in his work.

UNDER AN AVALANCHE.

A Remarkable Experience and Rescue in the Italian Alps.

Human beings occasionally live through incredibly long imprisonments after their dwellings have been overwhelmed by avalanches. On March 19, 1755, avalanches buried the village of Bergemolto, in the Italian Alps, and on April 25 three women were dug out alive from a stable in which they had been immured for thirty-seven days in the dark beneath the mass of snow which lay forty-two feet higher than the roof. With them had been buried a little boy, six goats, a donkey and some hens.

The child, the donkey and the fowls soon died, but the goats helped the women to survive, their milk supplementing the thirty or forty cakes and the pocketful of chestnuts upon which they depended for food. Hope of finding the women alive had been abandoned when far in April the brother of one had a dream in which she appealed to him for rescue.

The weather then at last made excavation possible, and the women were restored to the world and presently to health.—Chicago News.

Culture.

Culture is a slow process. It comes from long and close contacts. It is the fruit of reflection, of travail of soul and of mind. Grappling with something until the very essence of it has been extracted is a first step. Thus the tastes of essences is learned, and once learned lesser distillations do not satisfy. Then follows a growing power to discriminate, to distinguish nice values, to judge of quality, to answer to beauty, to feel the need, that what you have, though it may be little, may still be the real thing. This is culture. It is not baggage, like diplomas and degrees. It is not things seen and heard, miles traveled or books read. These are the materials for culture. They

contribute to it only when they are absorbed by the mind and as really lost in it as water and lime, phosphate and ammonia must be lost in the soil if they are to enrich it and enable it to increase its yield.—Ida M. Tarbell in Woman's Home Companion.

CURIOUS PENALTIES.

Some That Were Inflicted in the Early Days in New York.

When New York, or as it was then called, New Amsterdam, was under Dutch rule, some peculiar penalties were enacted. In 1642 a defendant in an action for slander was sentenced "to throw something in the box for the poor." In 1644 Thomas Cornel, a soldier, was tried for desertion and sentenced "to be conveyed to the place of execution, and there fastened to a stake and a ball fired over his head, as an example to other evildoers."

In 1647 Jonas Jonassen, a soldier, for robbing hen roosts and killing a pig was ordered "to ride a wooden horse three days, from 2 p. m. to the conclusion of the parade, with a fifty pound weight tied to each foot." In 1648 an Englishman found guilty of a grave offense was pardoned on condition that he saw firewood for one year for the West India company.

In the time of the commonwealth, in England, drunkards at Newcastle-on-Tyne were sentenced to carry about a tub, with holes in the sides for the arms to pass through. In 1754, in Scotland, David Leyes, for striking his father, was compelled to appear before the congregation at church, "bairneddit and bairfuttit," with a paper above his head inscribed with large letters, "Behold the unnatural son, punished for putting hand on his father, and dishonoring God in him."—Exchange.

Any course, arranged in separate lessons, can be taken without cost by Ohio residents. Most will occupy the greater part of the winter. After persons have had a chance to read each lesson, a written test will be given by mail, and these examination papers inspected and criticized by professors in the college of agriculture.

Ohio is said to be one of the first states to institute such a correspondence course as part of the state university curriculum. Special bulletins containing full information concerning the courses can be secured by addressing J. E. McClintock, Ohio State University, Columbus.

Courses are offered in these subjects: Alfalfa culture, bee keeping, clover culture, concrete work on the farm, corn culture, dairy farming, farm accounts, farm buildings, farm power, farm lighting, farm water supply and sanitation, grasses, home sanitation, orchard fruits, potato growing, poultry farming, selection and preparation of foods, sheep farming, soil fertility, study of trees, tobacco growing, and vegetable gardening.

CASE UNDER WAY IN PROBATE COURT

The case of Ada Hays against J. W. Hays, in which possession of a minor child is sought by the plaintiff, is under way in the probate court, and has been in progress since Tuesday morning.

The plaintiff is represented by J. D. Post and C. E. Baughn and the defendant by W. B. Rogers.

ARRESTED FOR ENTERING HOUSE

Gerald Cartwright was apprehended on a warrant issued before Justice T. N. Craig, charged with breaking into a residence with intent to commit a felony.

The charge was filed by a Mrs. Dowler, of near the old gas plant. The trial will be held Saturday.

HELD OPTION BUT DID NOT BUY PAPER

A communication from Mr. W. J. Galvin, of Jamestown, states that he has not purchased the Wilmington Daily Herald, as rumored, but did hold an option upon the paper, but after due consideration, decided not to purchase the publication in question.

Mr. Galvin will continue to conduct the Greene County Journal, at Jamestown, and look after other interests.

New Ways of Saying It

"Strain at a goat and swallow a camel" came from the lips of an old friend as "Gag at a straw and swallow a whole load of hay." Of a certain girl she said, "She smiles like a frog at the girls and grins like a rag carpet at the boys." I have never seen a rag carpet since but it resolves itself into rows of grinning teeth, and as for the drooping smile of the frog, it certainly speaks for itself, as it were.—Woman's Home Companion.

ARCHITECT A CLOWN

Buffoon With Carl Hagenbeck-Wallace Circus Has Interesting Career.

From the life work of an architect to that of a circus clown is a long jump, but one which was made by Harvey Johnson, principal clown with the Hagenbeck-Wallace Circus which comes to Washington C. H., Monday, September 20 for two performances.

For fifteen years Johnson was a past master of the blue prints in his Chicago office. He was very successful and he drew the plans and supervised the construction of many buildings. One day a circus came to Chicago, and, like hundreds of others, he thought he would have to go and carry the children. He watched the clowns and underneath their makeup he saw the seriousness with which they worked. It impressed him.

Leaving the show grounds Johnson began to think about the clowns. He went to the public library and dug up books as far back as those which dealt with the days of the circus in the Roman Coliseum. He read about Grimaldi and other ancient buffoons. Then he began to work out stunts and tricks. He placed them on paper and developed them stage by stage. He found a veteran clown who assisted him in his work. Finally he got a job with a small circus at a still smaller salary.

But Johnson liked the work; that of making others happy. The stunts he developed were really marvelous. They were totally different from ordinary clowns' stunts. A scout of the Carl Hagenbeck-Wallace Circus saw Mr. Johnson and immediately gave him a contract. For eight years he has been "clownin' for a livin'," as he tersely expresses it, and, apparently, he is in love with the flapsticks.

It is a very difficult act that Mr. Johnson cannot get a burlesque of some kind on. Some of his stunts for this year are: "The Suffragette Parade," "Mutt and Jeff," "The Atlantic City Boardwalk" and "Broadway After Dark." Mr. Johnson has forty-nine clowns assisting him in his work.

UNDER AN AVALANCHE.

A Remarkable Experience and Rescue in the Italian Alps.

Human beings occasionally live through incredibly long imprisonments after their dwellings have been overwhelmed by avalanches. On March 19, 1755, avalanches buried the village of Bergemolletto, in the Italian Alps, and on April 25 three women were dug out alive from a stable in which they had been immured for thirty-seven days in the dark beneath the mass of snow which lay forty-two feet higher than the roof. With them had been buried a little boy, six goats, a donkey and some hens.

The child, the donkey and the fowls soon died, but the goats helped the women to survive, their milk supplementing the thirty or forty cakes and the pocketful of chestnuts upon which they depended for food. Hope of finding the women alive had been abandoned when far in April the brother of one had a dream in which she appealed to him for rescue.

The weather then at last made excavation possible, and the women were restored to the world and presently to health.—Chicago News.

Culture.

Culture is a slow process. It comes from long and close contacts. It is the fruit of reflection, of travail of soul and of mind. Grappling with something until the very essence of it has been extracted is a first step. Thus the tastes of essences is learned, and once learned lesser distinctions do not satisfy. Then follows a growing power to discriminate, to distinguish nice values, to judge of quality, to answer to beauty, to feel the need, that what you have, though it may be little, may still be the real thing. This is culture. It is not baggage, like diplomas and degrees. It is not things seen and heard, miles traveled or books read. These are the materials for culture. They

contribute to it only when they are absorbed by the mind and as really lost in it as water and lime, phosphate and ammonia must be lost in the soil if they are to enrich it and enable it to increase its yield.—Ida M. Tarbell in Woman's Home Companion.

CURIOUS PENALTIES.

Some That Were Inflicted in the Early Days in New York.

When New York, or as it was then called, New Amsterdam, was under Dutch rule, some peculiar penalties were enacted. In 1642 a defendant in an action for slander was sentenced "to throw something in the box for the poor." In 1644 Thomas Cornel, a soldier, was tried for desertion and sentenced "to be conveyed to the place of execution, and there fastened to a stake and a ball fired over his head, as an example to other evildoers."

In 1647 Jonas Jonassen, a soldier, for robbing hen roosts and killing a pig was ordered "to ride a wooden horse three days, from 2 p. m. to the conclusion of the parade, with a fifty pound weight tied to each foot." In 1648 an Englishman found guilty of a grave offense was pardoned on condition that he saw firewood for one year for the West India company.

In the time of the commonwealth, in England, drunkards at Newcastle-on-Tyne were sentenced to carry about a tub, with holes in the sides for the arms to pass through. In 1754, in Scotland, David Leyes, for striking his father, was compelled to appear before the congregation at church, "hairbreadth and bairfuttit," with a paper above his head inscribed with large letters, "Behold the unnatural son, punished for putting hand on his father, and dishonoring God in him."—Exchange.
